

BEFORE YOU START...

HOW TO ACCESS IDEAL+ E-LEARNING RESOURCES?

IDEAL+ offers a variety of e-learning resources. Some are hosted directly on the IDEAL+ website, others are hosted by Université de Paris on Moodle. For those, these are the easy steps to access them:

Step 1

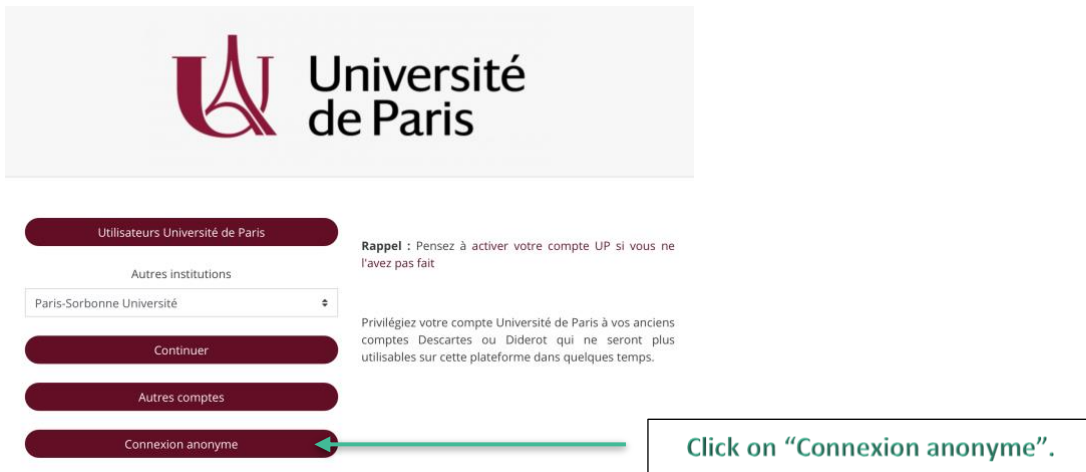

The screenshot shows a video player interface for 'Infective endocarditis'. It includes a 10-minute icon, the title, and credits: 'Original material by Dr Caroline Charlier-Woerther, Université de Paris adapted by Liem Binh Luong Nguyen, MS, Université de Paris'. A 'START' button is visible on a world map background. A green arrow points from the 'START' button to a callout box.

LEARNING OBJECTIVES

- Diagnose infective endocarditis (signs, symptoms and complications)
- Describe the pathogenic mechanism
- Identify the etiologic agents, risk factors and their role in the pathogenesis and epidemiology
- Suggest the best diagnostic approach and therapy (empiric/specific)

Click on the resource.

Step 2

The screenshot shows the Université de Paris login page. It features the university logo and name. There are four main buttons: 'Utilisateurs Université de Paris', 'Autres institutions', 'Autres comptes', and 'Connexion anonyme'. A dropdown menu is open under 'Autres institutions' showing 'Paris-Sorbonne Université'. A green arrow points from the 'Connexion anonyme' button to a callout box.

Utilisateurs Université de Paris

Autres institutions

Paris-Sorbonne Université

Autres comptes

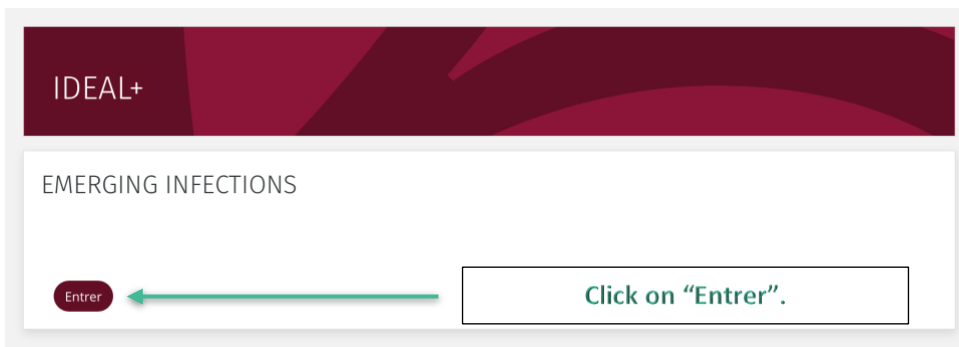

Connexion anonyme

Rappel : Pensez à activer votre compte UP si vous ne l'avez pas fait

Privilégiez votre compte Université de Paris à vos anciens comptes Descartes ou Diderot qui ne seront plus utilisables sur cette plateforme dans quelques temps.

Click on "Connexion anonyme".

Step 3

The screenshot shows the IDEAL+ website header with the 'IDEAL+' logo. Below it, the 'EMERGING INFECTIONS' section is visible. A green arrow points from the 'Entrer' button to a callout box.
